#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees Ripon Unified School District Ripon, CA

## **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Ripon Unified School District (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

## **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Ripon Unified School District (the "District"), as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget (Non-GAAP) and Actual – General Fund, Schedule of Changes in the District's Net OPEB Liability and Related Ratios, Schedule of Proportionate Share of Net Pension Liability, and Schedule of Pension Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information as listed in the table of contents, including the schedule of expenditures of federal awards, as required by the August 2020 Edition of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance), Audits of States, Local Governments, and Non-Profit Organizations and the addendum released in December 2020, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information as listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Reporting Required by Government Auditing Standards

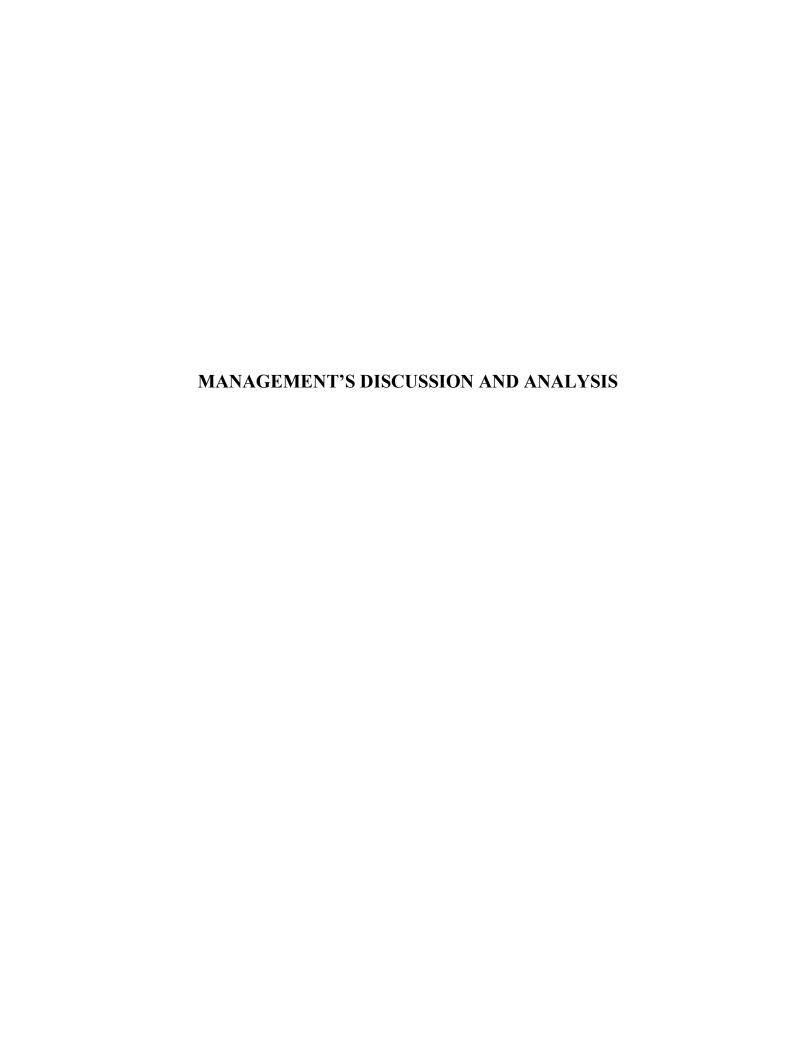

James Marta + Company LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated January 25, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

**JUNE 30, 2020** 

This section of Ripon Unified School District (the "District") annual financial report presents management's discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2020. Please read it in conjunction with the Independent Auditor's Report and the District's financial statements.

## **USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and Statement of Activities provide information about the activities of the District as a whole and present a longer-term view of the District's finances. The Governmental Funds Balance Sheet and the Statement of Revenues, Expenditures and Change in Fund Balances provide information about how District services were financed in the short-term, and how much remains for future spending. Fund financial statements also report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. The remaining statements provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside the District.

## FINANCIAL HIGHLIGHTS

- ⇒ Over the course of the year, the District's net position increased by \$5,452,294.
- $\Rightarrow$  Capital assets, net of depreciation, decreased by \$2,342,055. Accumulated depreciation increased by \$3,010,086.
- ⇒ Long-term liabilities increased by \$246,743, with bonds payable increasing by \$1,318,377, supplemental retirement plan obligation decreasing by \$131,908, net pension liability decreasing by \$555,192, net OPEB liability decreasing by \$422,673, and compensated absences increasing by \$38,139.
- ⇒ During fiscal year 2019-20, average daily attendance (ADA) for P2 of the District increased by 107 ADA.
- ⇒ The District maintains the State required minimum reserves for economic uncertainty of 3% of General Fund expenditures, transfers out, and other uses (total outgo). Additionally, the Board has authorized an additional 3% be reserved for economic uncertainties, for a total of 6%. During fiscal year 2019-20, General Fund expenditures, transfers out, and other uses totaled \$33,978,720. As of June 30, 2020, the District had available reserves designated for economic uncertainties of \$2,125,171, approximately 6.3% of General Fund expenditures, transfers out, and other uses.

## THE FINANCIAL REPORT

The full annual financial report consists of three separate parts, including the basic financial statements, supplementary information, and Management's Discussion and Analysis. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives, government-wide and funds.

- ⇒ Government-wide financial statements, which comprise the first two statements, provide both short-term and long-term information about the District's overall financial position.
- ⇒ Individual parts of the District, which are reported as fund financial statements, comprise the remaining statements.
  - Basic services funding is described in the governmental funds statements. These statements include short-term financing and identify the balance remaining for future spending.
  - ° Financial relationships, for which the District acts as an agent or trustee for the benefit of others to whom the resources belong, are presented in the fiduciary fund statements.

Notes to the basic financials, which are included in the financial statements, provide more detailed data and explain some of the information in the statements. They are an integral part of the financial statements. The required supplementary information provides further explanations and provides additional support for the financial statements.

#### Reporting the District as a Whole

The District as a whole is reported in the Government-wide statements and uses accounting methods similar to those used by companies in the private sector. All of the District's assets and liabilities are included in the Statement of Net Position. The Statement of Activities reports all of the current year's revenues and expenses regardless of when cash is received or paid.

The District's financial health or position (net position) can be measured by the difference between the District's assets and liabilities.

- ⇒ Increases or decreases in the net position of the District over time are indicators of whether its financial health is improving or deteriorating, respectively.
- ⇒ Additional non-financial factors such as the condition of school buildings and other facilities, and changes in the property tax base of the District need to be considered in assessing the overall health of the District.

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **JUNE 30, 2020**

Information included in the Statement of Net Position and the Statement of Activities, consists solely of the governmental activities of the District.

## Governmental Activities:

The basic services provided by the District, such as regular and special education, administration, and transportation are included here, and are primarily financed by state apportionments, property taxes, impact aid, and other state and federal aid. Non-basic services, such as child nutrition, are also included here, but are financed by a combination of state and federal contract and grants, and local revenues.

## Reporting the District's Most Significant Funds:

The District's fund-based financial statements provide detailed information about the District's most significant funds. Some funds are required to be established by State law, while other funds have been established to control and manage money for specific purposes.

### Governmental Funds

The major governmental funds of Ripon Unified School District are the General Fund, Building Fund, and Capital Facilities Fund. Governmental fund reporting focuses on how money flows into and out of the funds and the balances that remain at the end of the year. A modified accrual basis of accounting measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and services. Governmental fund information helps to determine the level of financial resources available in the near future to finance the District's programs.

## Fiduciary Funds

The District is the trustee, or fiduciary, for its student activity funds. All of the District's fiduciary activities are reported in separate Fiduciary Statements. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance their operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

## GENERAL FUND BUDGETARY HIGHLIGHTS

The District's budget is prepared in accordance with California law and is based on the modified accrual basis of accounting. Over the course of the year, the District revised its annual operating budget at various times to reflect the most recent financial information available. The most significant budget adjustments made during the year fall into the following categories:

- ⇒ Budget revisions to the adopted budget required after approval of the State budget.
- ⇒ Budget revisions to adjust program revenues and expenditures to final awards.
- ⇒ Budget revisions to reflect changes in staffing and hiring

### MANAGEMENT'S DISCUSSION AND ANALYSIS

### **JUNE 30, 2020**

## ECONOMIC FACTORS BEARING ON THE DISTRICT'S FUTURE

The District used the following assumptions in constructing the 2020-21 fiscal year budget. The information provided below is current as of July 1, 2020.

- Local Control Fund Formula (LCFF)
- The Local Control Funding Formula (LCFF) is the new finance system for K-12 education.
- The LCFF provides base, supplemental, and concentration grants in place of most previously
  existing funding sources, including revenue limits and most state categorical programs. As part of
  the LCFF, the district will be required to develop, adopt, and annually update three-year Local
  Control and Accountability Plan (LCAP) using a template adopted by the California State Board
  of Education.

In considering the District Budget for the 2020-21 year, the governing board and management used the following criteria:

Expenditures are based on the following forecasts:

	Staffing Ratio
Grades kindergarten through third	24:1
Grades four through eight	27.7:1
Grades nine through twelve	19.9:1

The District plan is to be fiscally prudent, working with stakeholders on the continued development of the LCAP plan, improving the achievement gap with our subgroups, maximizing the usage of one-time funding for professional development and develop a spending plan on the Clean Energy Act. The District's goal is to continue balancing the annual budget without the dependence on ADA growth.

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact the Chief Operating Officer at Ripon Unified School District, 304 North Acacia Avenue, Ripon, California 95366, or email at fjerome@riponusd.net.

# RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

Total net change in fund balances - governmental funds		\$ 4,509,95	56
Amounts reported for revenues and expenses for governmental activities in the statement of activities are different from amounts reported in governmental funds because:			
Capital outlay: In governmental funds, the costs of capital assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets are allocated over their estimated useful lives as depreciation expense. The difference between capital outlay expenditures and depreciation expense for the period is:			
Expenditures for capital outlay: Depreciation expense:	\$ 612,103 (3,007,643)	(2,395,54	40)
Debt service: In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:		6,808,72	23
Debt proceeds: In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount were:		(8,830,00	00)
Unmatured interest on long-term debt: In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period that it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period was:		160,90	07
Accreted interest on capital appreciation bonds is not recognized as an expenditure in the governmental fund financial statements until paid. In the statement of activities, however, accreted interest is recognized as an expense as the capital appreciation bonds accrete in value. The amount of accreted interest recognized in the current year was:		702,90	00
Other postemployment benefits (OPEB): In government funds, OPEB expenses are recognized when employer OPEB contributions are made in the statement of activities, OPEB expenses are recognized on the accrual basis. This year, the difference between OPEB expenses and actual employer OPEB contributions was:		(82,49	92)
Pensions: In government funds, pension costs are recognized when employer contributions are made in the statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and actual employer contributions was:		1,940,6	76
Amortization of debt issue premium or discount or deferred gain or loss from debt refunding: In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount, plus any deferred gain or loss from debt refunding, is amortized as interest over the life of the debt. Amortization of premium or discount, or deferred gain or loss from debt refunding, for the period is:		2,351,62	27
Internal Service Funds: Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to benefit governmental activities, internal service activities are reported as governmental in the statement of activities. The net increase or decrease in internal service funds was:		191,70	68
Compensated absences: In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measure by the amounts earned. The difference between compensated absences paid and compensated absences earned was:		(38,13	39)
Supplementary Retirement Plan: In governmental funds, employer costs are recognized when employer payments are made. In the statement of activities, employer costs are recognized on the accrual basis. The difference between employer costs and actual employer payments was:		131,90	U8

### NOTES TO THE BASIC FINANCIAL STATEMENTS

**JUNE 30, 2020** 

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. ACCOUNTING POLICIES

The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's California School Accounting Manual. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

#### **B. REPORTING ENTITY**

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards and agencies that are not legally separate from the District. For Ripon Unified School District, this includes general operations, food service and student related activities of the District. The District has considered all potential component units in determining how to define the reporting entity, using criteria set forth in generally accepted accounting principles generally accepted in the United States of America. The District and the Mello-Roos Community Facilities District #1 (the Facilities District) have a financial and operational relationship, which meets the reporting entity definition criteria of the GASB Statement No. 14, The Financial Reporting Entity for inclusion of the Facilities District as a component unit of the District. Accordingly, the financial activities of the Agency are reported as a non-major debt service fund in the financial statements of the District.

### Manifestation of Oversight

A. The Facilities District's Board of Directors are the same as the District's Governing Board.

## **Accounting for Fiscal Matters**

- A. The District is able to impose its will upon the Facilities District, based on the following:
  - All major financing arrangements, contracts, and other transactions of the Facilities District must have the consent of the District.
  - The District exercises significant influence over operations of the Facilities District as it is anticipated that the District will be the sole lessee of all facilities owned by the Facilities District.

### NOTES TO THE BASIC FINANCIAL STATEMENTS

### **JUNE 30, 2020**

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### **B. REPORTING ENTITY (CONTINUED)**

- B. The Facilities District provides specific financial benefits or imposes specific financial burdens on the District based upon the following:
  - Any deficits incurred by the Facilities District will be reflected in the lease payments of the District.
  - Any surpluses of the Facilities District will be reflected in the lease payments of the District.
  - The District has assumed a "moral obligation", and potentially a legal obligation, of any debt incurred by the Facilities District.

## Scope of Public Service and Financial Presentation

- A. The Facilities District was formed for the sole purpose of providing financing assistance to the District for construction and acquisition of major capital facilities.
- B. The Facilities District is a community facilities district pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982, as amended by Chapter 2.5 Part I, Division 2, Title 5 of the government code of the State of California on March 30, 1989.
- C. The Facilities District's financial activity is presented in the financial statements as the Mello-Roos Community Facilities District #1 Fund.

### C. BASIS OF PRESENTATION

#### Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities.

The government-wide statement of net position presents information on all of the District's assets and liabilities, with the difference between the two presented as net position. Net position is reported as one of three categories: invested in capital assets, net of related debt; restricted or unrestricted.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are, therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the statement of activities. Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and

contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, which are not classified as program revenues, are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Depreciation expense is specifically identified by function and is included in the direct expense function. Interest on long-term liabilities is considered an indirect expense and is reported separately in the Statement of Activities.

## Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major governmental fund is presented in a separate column, and all non-major funds are aggregated into one column. Fiduciary funds are reported by fund type.

Program revenues include charges paid by the recipients of goods or services offered by a program, as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

#### Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements are met.

## Governmental Fund Financial Statements

Governmental fund financial statements (i.e., balance sheet and statement of revenues, expenditures, and changes in fund balances) are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis,

## D. MEASUREMENT FOCUS AND BASIS OF ACCOUNTING (CONTINUED)

revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means collectible within the current period or within 60 days after year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are to be used, or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

#### E. FUND ACCOUNTING

The accounts of the District are organized on the basis of funds or account groups, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate. District resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The District funds and account groups are as follows:

#### Governmental Funds

General Fund is the general operating fund of the District. It is used to account for all transactions except those required or permitted by law to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The District maintains one special revenue fund:

The Cafeteria Fund is used to account for revenues received and expenditures made to operate the District's cafeterias.

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### E. FUND ACCOUNTING (CONTINUED)

The *Deferred Maintenance Fund* is used to account separately for revenues that are restricted or committed for deferred maintenance purposes

Capital Projects Funds are used to account for the acquisition and/or construction of all major governmental general fixed assets. The District maintains four capital projects funds:

The *Building Fund* is used primarily to account separately for proceeds from the sale of bonds (Education Code Section 15146) and may not be used for any purposes other than those for which the bonds were issued.

The Capital Facilities Fund is used to account for community redevelopment agency revenues and capital outlay expenditures.

The *County School Facilities Fund* is used to account for new school facilities construction funded by state school facilities funding sources.

The Special Reserve Fund for Capital Outlay Projects is used to provide for the accumulation of general fund moneys for capital outlay purposes.

*Debt Service Funds* are used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs. The District maintains two debt service funds:

The *Bond Interest and Redemption Fund* is used to account for District taxes received and expended to pay bond interest and redeem bond principal.

### Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. The *Private Purpose Trust Funds* are used to account for assets held by the District as trustee. *Student Body Funds* are used to account for the raising and expending of money to promote the general welfare, morale and educational experience of the student body.

#### Proprietary Funds

Proprietary funds are used to account for activities that are more business-like than government-like in nature, which a fee is charged to external users or to other organizational units of the LEA, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting.

The Farm Fund is used to operate and maintain an agricultural education area for the students. The principal revenue sources in this fund are the revenues from the sale of agricultural produce.

The Self-Insurance Fund is used to pay for property and liability claims for the District.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### E. FUND ACCOUNTING (CONTINUED)

These funds' activities are reported in a separate statement of fiduciary net position. These funds are custodial in nature and do not involve measurement of results of operations. Accordingly, the District presents only a statement of fiduciary net position and does not present a statement of changes in fiduciary net position. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Fiduciary funds are presented on an economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements.

## F. BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. By state law, the District's governing board must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The District's governing board satisfied these requirements.

These budgets are revised by the District's Board of Trustees and District Superintendent during the year to give consideration to unanticipated income and expenditures. The original and final revised budgets are presented for the General Fund and Major Special Revenue Funds as required supplementary information in the financial statements.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

### G. INVENTORY

Inventory in the Cafeteria fund consists mainly of consumable supplies held for future use and are valued at average cost. Inventories are recorded as expenditures at the time individual inventory items are transferred from the warehouse to schools. Maintenance and other supplies held for physical plant repair, transportation supplies, and operating supplies are not included in inventories; rather, these amounts are recorded as expenditures when purchased.

The cafeteria fund records supplies expense which includes a handling charge for the delivery of government surplus food commodities. The state does not require the Cafeteria Fund to record the fair market value of these commodities. The supplies expenditures would have been greater had the District paid fair market value for the government surplus commodities.

#### H. CAPITAL ASSETS

Capital assets are those purchased or acquired with an original cost of \$5,000 or more and are reported at historical cost or estimated historical cost and capital improvement, acquisition or construction with an original cost of \$50,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the asset's lives are not capitalized, but are expenses as incurred. Depreciation on all capital assets is computed using the straight-line basis over the following estimated useful lives:

Asset Class	Years
Sites and Improvements	10-36
Buildings and Improvements	7-40
Furniture and Equipment	5-15

#### I. COMPENSATED ABSENCES

All vacation pay plus related payroll taxes are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### J. ACCUMULATED SICK LEAVE

Sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expenditure in the period taken since such benefits do not vest nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

#### K. RESTRICTED NET POSITION

Restrictions of the ending net position indicate the portions of net position not appropriate for expenditure or amounts legally segregated for specific future use. These amounts are not available for appropriation and expenditure at the balance sheet date.

#### L. UNEARNED REVENUE

Cash received for federal and state special projects and programs is recognized as revenue to the extent that the qualified expenditures have been incurred. Unearned revenue is recorded to the extent cash received on specific projects and programs exceed qualified expenditures.

### NOTES TO THE BASIC FINANCIAL STATEMENTS

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### M. PROPERTY TAX

The District's local control funding formula is received from a combination of local property taxes, state apportionments, and other local sources.

Secured property taxes are levied as an enforceable lien on property as of January 1. Taxes are payable in two installments, on December 10 and April 10. Unsecured property taxes are payable in one installment on or before August 31. The County of San Joaquin bills and collects the taxes for the District.

Tax revenues are recognized by the District when received.

The County Auditor reports the amount of the District's allocated property tax revenue to the California Department of Education. Property taxes are recorded as local control funding formula (LCFF) sources by the District.

The California Department of Education reduces the District's entitlement by the District's local property tax revenue. The balance is paid from the State General Fund, and is known as the state apportionment.

## N. FUND BALANCE RESERVES AND DESIGNATIONS

In accordance with Governmental Accounting Standards Board (GASB) Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", the District is required to report fund balances in the following categories: Nonspendable, Restricted, Committed, Assigned and/or Unassigned.

Nonspendable Fund Balance reflects assets not in spendable form, either because they will never convert to cash (e.g., prepaid expense) or must remain intact pursuant to legal or contractual requirements.

Restricted Fund Balance reflects amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Committed Fund Balance reflects amounts that can be used only for the *specific purposes* determined by a formal action of the government's highest level of decision-making authority: the Board of Trustees. Commitments may be established, modified, or rescinded only through resolutions approved by the Board of Trustees.

Assigned Fund Balance reflects amounts intended to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed. Under the District's adopted policy, only the Board of Trustees is authorized to assign amounts for specific purposes.

*Unassigned Fund Balance* represents the residual classification for the government's General Fund and includes all spendable amounts not contained in the other classifications.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS

**JUNE 30, 2020** 

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### N. FUND BALANCE RESERVES AND DESIGNATIONS (CONTINUED)

When expenditures are incurred for purposes of which restricted, committed, assigned and unassigned fund balances are available, the District considers restricted funds to have been spent first, followed by committed, assigned and unassigned, respectively.

#### O. ENCUMBRANCES

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated at June 30.

#### P. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### O. ELIMINATIONS AND RECLASSIFICATIONS

In the process of aggregating data for the government-wide statements, some amounts reported as interfund activity and balances in the fund financial statements were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the "grossing up" effect on assets and liabilities within the governmental activities column.

#### R. DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s), and as such will not be recognized as an outflow of resources (expense/expenditures) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and as such, will not be recognized as an inflow of resources (revenue) until that time.

#### S. PENSIONS

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Ripon Unified School District's California Public Employees' Retirement System (CalPERS) and California State Teachers Retirement System (CalSTRS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS and CalSTRS, respectively. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# T. POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

For purposes of measuring the District's OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan (OPEB Plan) and additions to/deductions from the District's fiduciary net position have been determined on the same basis as they are reported by the OPEB Plan. For this purpose, the OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

#### A. CASH IN COUNTY TREASURY

The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statement at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Cash in County Treasury consists of District cash held by the San Joaquin County Treasury that is invested in the county investment pool. The Treasury permits negative cash balances so long as the District's total cash in county treasury has a positive balance.

The fair value of the District's investment in the pool is reported in the financial statements at amounts that are based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The weighted average maturity of the pool is 458 days. The pool is rated AAA by Standard and Poor's.

#### B. CASH IN REVOLVING FUNDS AND IN BANKS

Cash balances held in banks and revolving funds are insured up to \$250,000 by the Federal Depository Insurance Corporation. All cash held by the financial institution is fully insured or collateralized.

Interest Rate Risk. The District does not have a formal investment policy that limits cash and investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At June 30, 2020, the District had no significant interest rate risk related to cash and investments held.

#### 6. EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Certificated employees are members of the State Teachers' Retirement System (STRS), and classified employees are members of the California Public Employees' Retirement System (CalPERS).

## **Plan Description**

# California Public Employees' Retirement System (CalPERS)

The District contributes to the School Employer Pool under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the Public Employees' Retirement Law. CalPERS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the CalPERS annual financial report may be obtained from the CalPERS Headquarters, 400 Q Street, Sacramento, California 95811.

#### **State Teachers' Retirement System (STRS)**

The District contributes to the State Teachers' Retirement System (STRS), a cost-sharing, multiple-employer, public employee retirement system defined benefit pension plan administered by STRS. The plan provides retirement and disability benefits and survivor benefits to beneficiaries. Benefit provisions are established by state statutes, as legislatively amended, within the State Teachers' Retirement Law. STRS issues a separate comprehensive annual financial report that includes financial statements and required supplementary information. Copies of the STRS annual financial report may be obtained from the STRS Headquarters, 100 Waterfront Place, West Sacramento, California 95605.

The Plans' provisions and benefits in effect at June 30, 2020, are summarized as follows:

#### Contributions

#### **CalPERS**

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

#### **STRS**

Required member, employer and state contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. Contribution rates are expressed as a level percentage of payroll using the entry age normal actuarial cost method.

For the year ended June 30, 2020, the contributions reported as deferred outflows of resources related to pensions recognized as part of pension expense for each Plan were as follows:

	<u>CalPERS</u>		STRS		Total

## 6. EMPLOYEE RETIREMENT SYSTEMS (CONTINUED)

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2019, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability for the Plan as of June 30, 2018 and 2019 was as follows:

Measurement

For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS

**JUNE 30, 2020** 

#### 6. EMPLOYEE RETIREMENT SYSTEMS (CONTINUED)

CalSTRS changed the mortality assumptions based on the July 1, 2010, through June 30, 2015, experience study adopted by the board in February 2017. CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among our members. The projection scale was set equal to 110% of the ultimate improvement factor from the Mortality Improvement Scale (MP2016) table issued by the Society of Actuaries.

## **Discount Rate**

#### **CalPERS**

The discount rate used to measure the total pension liability for Plan was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table on the following page reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

#### Discount Rate

#### **STRS**

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers are made at statutory contribution rates in accordance with the rate increases, actuarially determined. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10%) and assuming that contributions, benefit payments and administrative expenses occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term investment rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS' general investment consultant (Pension Consulting Alliance) as inputs to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumptions for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class, are summarized in the following table.

## 7. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

*Plan description*. The plan provides medical, dental and vision coverage for all employees who have completed 10 or more years with the District. Coverage under the healthplan ends when the retiree reaches the age of 65.

Benefits provided. The District reported the following OPEB: medical, dental and vision coverage.

Coverage is available for employees who retire from the District under the applicable retirement system (CalPERS or CalSTRS) provided they have completed 10 or more years of service to the District. Employees who retire prior to completing the age and service requirements may not continue health coverage on any District-sponsored plan. Coverage under a District healthcare plan ends for all retirees when the retiree reaches age 65, except for Board Policy members hired before January 1, 2004. Coverage is available for a retiree's dependents, though the retiree is responsible for the additional cost of their coverage.

Retirees with less than 10 years of District service and/or those whose District-paid benefits have ended may choose coverage provided through the HIC San Joaquin group retiree plan. Coverage under this plan is not expected to create any OPEB liability to the District.

The postretirement health plans and the District's obligation vary by employee group as described below.

Contributions: The contribution requirements of Plan member and the District are established and may be amended by the District and the Ripon Unified District Teachers Association (RUDTA) and the local CSEA chapter. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2019-20, the District did not make any contributions to the Plan.

#### **Net OPEB Liability**

The District's net OPEB liability was measured as of June 30, 2020, and the total OPEB liability was used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation date	June 30, 2020
Measurement date	June 30, 2020
Funding method	Entry Age Normal Cost, level percent of pay
Asset valuation method	Not applicable, no OPEB trust has been established
Discount rates	2.79% as of June 30, 2019
	2.66% as of June 30, 2020
	Based on the S&P Municipal Bond 20 Year High Grade Index
Participats valued	Only current active employees and retired participants
	and covered dependents are valued. No future entrants
	are considered in this valuation.
Salary increase	3.0% per year; since benefits do not depend on salary, this is
	used to allocate the cost of benefits between service years
General inflation rate	2.5% per year
Mortality Improvement	MacLeod Watts Scale 2020 applied generationally, from 2015
	for CalPERS members and from 2016 for CalSTRS members

Demographic actuarial assumptions used in this valuation are based on the following two studies:

For CalPERS members: On the December 2017 experience study of the California Public Employees Retirement System using data from 1997 to 2015, except for a different basis used to project future mortality improvements. The representative mortality rates were those published by CalPERS adjusted to back out 15 years of Scale MP 2016 to central year 2015 before being projected forward as described below.

For CalSTRS members: On the December 2016 CalSTRS experience study report. The representative mortality rates were those published by CalSTRS in the 2016 study before projection.

#### 9. JOINT POWERS AGREEMENTS

The District is a member with other school districts in Joint Powers Authorities (JPAs). San Joaquin County Schools Workers' Compensation Insurance Group (SJCSWCIG) and San Joaquin County Schools Property and Liability Group (SJCSPLIG) provide workers compensation coverage and property and liability coverage, respectively. San Joaquin County Schools Data Processing Center provides accounting, personnel and student attendance accounting, scheduling, and testing services to the District.

The following is a summary of latest financial information available for the JPAs:

<sup>\*</sup>Latest available audited reports

Each member of the JPAs has an ongoing financial responsibility in the event of the JPA's total liabilities exceed its total assets.

The relationship between the District and the Joint Powers Authorities is such that they are not a component unit of the District for financial reporting purposes. Financial statements for the JPAs are available from the individual JPAs.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS

**JUNE 30, 2020** 

#### 10. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The District incurred unanticipated expenditures in excess of appropriations in expenditure classifications for which the budget was not revised.

Excess of expenditures over appropriations for the year ended June 30, 2020 were as follows:

	]	Excess
	_ Exp	enditures
General Fund		
Employee benefits	\$	101,799

The excess is not in accordance with Education Code 42600. The excess General Fund employee benefit expenditures are due to unbudgeted CalSTRS on-Behalf contributions.

#### 11. SUBSEQUENT EVENTS

In March 2020, the World Health Organization declared the novel coronavirus ("COVID-19") a global pandemic and recommended containment and mitigation measures worldwide. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected public education, workforces, economies, and financial markets globally, potentially leading to an economic downturn. It has also disrupted the normal operations of many businesses and organizations. It is not possible for management to predict the duration or magnitude of the adverse results of the outbreak and its disruptive effects on the District's operations and financial results at this time.

The District's management evaluated its June 30, 2020 financial statements for subsequent events through January 25, 2021, the date the financial statements were available to be issued. Management is not aware of any subsequent events, other than those discussed above, that would require recognition or disclosure in the financial statements.

<sup>(1)</sup> Historical information is required only for measurement periods for which GASB 68 is applicable.

<sup>&</sup>lt;sup>(2)</sup> Covered payroll is the payroll on which contributions to a pension plan are based.

The Plan's proportionate share of aggregate contributions may not match the actual contributions made by the employer during the measurement period. The Plan's proportionate share of aggregate contributions is based on the Plan's proportion of fiduciary net position as well as any additional side fund (or unfunded liability) contributions made by the employer during the measurement period.

<sup>(1)</sup> Historical information is required only for measurement periods for which GASB 68 is applicable.

Employers are assumed to make contributions equal to the contractually required contributions. However, some employers may choose to make additional contributions towards their side fund or their unfunded liability. Employer contributions for such plans exceed the contractually required contributions. CalPERS has determined that employer obligations referred to as "side funds" do not conform to the circumstances described in paragraph 120 of GASB 68, therefore are not considered separately financed specific liabilities.

<sup>(3)</sup> Covered payroll is the payroll on which contributions to a pension plan are based.

### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

## FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### 1. PURPOSE OF SCHEDULES

# A - <u>Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget (Non-GAAP)</u> and Actual – General Fund

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The budgets are revised during the year by the Board of Trustees to provide for revised priorities. Expenditures cannot legally exceed appropriations by major object code. The originally adopted and final revised budgets for the General Fund are presented as Required Supplementary Information. The basis of budgeting is the same as GAAP.

#### B - Schedule of the Changes in the District's Net OPEB Liability and Related Ratios

Benefit changes: There were no changes to benefits.

Changes of assumptions: The discount rate decreased from 2.79% as of June 30, 2019 to 2.66% as of June 30, 2020.

Fiscal year 2018 was the first year of implementation, therefore only three years are shown.

Actuarial cost method Entry Age Normal Cost

Amortization method Level percent of pay

Amortization period 11.65 years, excluding those due to investment performance

being different from the assumed earnings rate, which are

always recognized over 5 years

Asset valuation method Not applicable, no OPEB trust has been established

Inflation 2.5% per year

Healthcare cost trend rates 5.4% in 2021, fluctuating down to 4% by 2076

Retirement Age 50-75

Salary increases 3.0% per year

Discount Rates 2.79% as of June 30, 2019

2.66% as of June 30, 2020

Based on the S&P Municipal Bond 20 Year High Grade Index

Mortality MacLeod Watts Scale 2020 applied generationally, from 2015

for CalPERS members and from 2016 for CalSTRS members

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### FOR THE FISCAL YEAR ENDED JUNE 30, 2020

## 1. PURPOSE OF SCHEDULES (CONTINUED)

#### D - Schedule of Proportionate Share of the Net Pension Liability

This schedule presents information on the District's proportionate share of the net pension liability (NPL), the Plans' fiduciary net position and, when applicable, the State's proportionate share of the NPL associated with the District. In the future, as data becomes available, ten years of information will be presented.

## **Changes in Assumptions**

There were no changes in the assumptions used in the calculation of both the PERS and STRS collective net pension liabilities.

## Changes in Benefit Terms

There were no changes in benefit terms since the previous valuations for both CalPERS and CalSTRS.

Fiscal year 2015 was the first year of implementation, therefore only six years are shown.

# E - Schedule of Pension Contributions

If an employer's contributions to the plans are actuarially determined or based on statutory or contractual requirements, the employer's actuarially determined contribution to the pension plans (or, if applicable, its statutorily or contractually required contribution), the employer's actual contributions, the difference between the actual and actuarially determined contributions (or statutorily or contractually required), and a ratio of the actual contributions divided by covered-employee payroll. In the future, as data becomes available, ten years of information will be presented.

Fiscal year 2015 was the first year of implementation, therefore only six years are shown.

The General Fund balance has increased by \$4,807,236 over the past three years. The fiscal year 2020-21 budget projects a decrease of \$360,298. For a District this size, the State of California recommends available reserves of at least 3 percent of total General Fund expenditures, transfers out, and other uses (total outgo). The District met this requirement.

The District has incurred an operating surplus in each of the past three fiscal years and anticipates a deficit in 2020-21.

Total long-term liabilities have increased by \$5,390,826 over the past two years due to increases in the net pension liability, issuance of bonds and net OPEB liability.

Average Daily Attendance (ADA) has increased by 196 over the past two years and attendance is budgeted to increase by 30 for fiscal year 2020-21.

#### NOTES TO SUPPLEMENTARY INFORMATION

#### FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### 1. PURPOSE OF SCHEDULES

#### A. Schedule of Average Daily Attendance

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

#### **B.** Schedule of Instructional Time

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46201 through 46206. Districts must maintain their instructional minutes at the State's standard requirements as required by Education Code Section 46201(b).

#### C. Schedule of Charter Schools

This schedule provides information for the California Department of Education to monitor financial reporting by Charter Schools.

#### D. Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides information necessary to reconcile the Annual Financial and Budget Report to the audited financial statements.

#### E. Schedule of Expenditures of Federal Awards

The accompanying schedule of expenditures of federal awards includes federal grant activity of the District and is presented under the modified accrual basis of accounting. The August 2020 Edition of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance) and the addendum released in December 2020 require a disclosure of the financial activities of all federally funded programs. This schedule was prepared to comply with the Uniform Guidance and state requirements. Therefore, some amounts presented in this schedule may differ from amounts used in the preparation of the general purpose financial statements. The District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

The schedule on the following page provides a reconciliation between revenues reported on the Statement of Revenues, Expenditures and Changes in Fund Balances, and the related expenditures reported on the Schedule of Expenditures of Federal Awards.

#### NOTES TO SUPPLEMENTARY INFORMATION

#### F. Schedule of Financial Trends And Analysis

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

#### 2. EARLY RETIREMENT INCENTIVE PROGRAM

Education Code Section 14502 requires certain disclosure in the financial statements of districts which adopt Early Retirement Incentive Programs pursuant to Education Code Section 22714 and 44929. For the fiscal year ended June 30, 2020, the District did not adopt such a program.

### INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH STATE LAWS AND REGULATIONS

Board of Trustees Ripon Unified School District Ripon, CA

#### **Report on Compliance for Each State Program**

We have audited Ripon Unified School District's (the "District") compliance with the types of compliance requirements described in the State of California's 2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting (the "Audit Guide") to the state laws and regulations listed below for the year ended June 30, 2020.

#### Management's Responsibility

Management is responsible for compliance with the requirements of state laws and regulations.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the 2019-20 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the state laws and regulations listed below occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the District's compliance with those requirements.

We did not perform any procedures related to Independent Study and Continuation Education because the Average Daily Attendance reported for the program is not material for compliance purposes.

We did not perform any procedures related to Contemporaneous Records of Attendance for Charter Schools, Mode of Instruction for Charter Schools, Nonclassroom-Based Instruction/Independent Study for Charter Schools, Determination of Funding for Nonclassroom-Based Instruction for Charter Schools, Annual Instructional Minutes-Classroom-Based for Charter Schools, and Charter School Facility Grant Program because the District did not have any charter schools.

#### Basis for Qualified Opinion on Compliance with State Laws and Regulations

As described in Findings **2020-01** in the accompanying Schedule of Audit Findings and Questioned Costs, the District did not comply with requirements regarding the Unduplicated Local Control Funding Formula Pupil Counts. Compliance with such requirements is necessary, in our opinion, for the District to comply with state laws and regulations applicable to that program.

#### Qualified Opinion on Compliance with State Laws and Regulations

James Marta + Company LLP

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the District complied, in all material respects, with the state laws and regulations referred to above for the year ended June 30, 2020.

#### **Unmodified Opinion on Each of the Other State Programs**

In our opinion, the District complied, in all material respects, with the other applicable state compliance requirements referred to above for the year ended June 30, 2020.

#### **Other Matters**

The District's response to the finding identified in our audit is described in the Schedule of Audit Findings and Questioned Costs Section of this report. We did not audit the District's response and, accordingly, we express no opinion on it.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

#### INDEPENDENT AUDITOR'S REPORT

Board of Trustees Ripon Unified School District Ripon, CA

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ripon Unified School District as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise Ripon Unified School District's basic financial statements, and have issued our report thereon dated January 25, 2021.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### REPORT ON COMLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

#### INDEPENDENT AUDITOR'S REPORT

**Board of Education** Ripon Unified School District Ripon, CA

#### Report on Compliance for Each Major Federal Program

We have audited Ripon Unified School District's (the "District") compliance with the types of compliance requirements described in the August 2020 Edition of the OMB Compliance Supplement and the addendum released in December 2020 that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of the August 2020 Edition of the Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance), Audits of States, Local Governments, and Non-Profit Organizations and the addendum released in December 2020. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

#### **Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## 2020-01 DEFICIENCY – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000)

#### Criteria

Students classified as "English Learner" status and are not directly certified on the CALPADS 1.18 FRPM English Learner/Foster Youth-Student List Report must have supporting documentation that indicates the student was eligible for the designation. Authority cited: Section 14502.1, Education Code. Reference: Sections 14502.1, 14503, 2574(b)(3)(C), 44238.02(b)(3)(B), and 41020, Education Code.

#### Condition

During the audit, out of a sample of 20 pupils tested, one student was reported as "Free or Reduced Price" status with a "No" under the "Direct Certification" column in the CALPADS 1.18. The District had supporting documentation that signified they were above the free or reduced price income threshold. The District performed a 100% self-audit and identified three students who were misclassified.

#### Effect

The effect of this finding is that three pupils are misclassified on the CALPARD 1.18 report.

#### Cause

Management oversight led to three pupils being misclassified on the CALPADS 1.18 report.

#### Fiscal Impact

The Unduplicated Pupil Percentage for the District was originally reported at 36.70% and the revised District Unduplicated Pupil Percentage should be 36.67%; the fiscal impact is a reduction of LCFF revenues of approximately \$1,688.

## 2020-01 DEFICIENCY – UNDUPLICATED LOCAL CONTROL FUNDING FORMULA PUPIL COUNTS (40000) (CONTINUED)

#### Repeat Finding

No.

#### Recommendation

The District should have a process of review in place to ensure the accuracy of the data contained in the CALPADS reports.

#### Corrective Action Plan

The Fiscal Services Director and Information Technology will meet on a regular basis to confirm that the FRPM counts and CALPADS counts reconcile. In addition, the management will ensure adequate documentation is available to ensure the students eligibility.

#### SCHEDULE OF PRIOR AUDIT FINDINGS

#### FOR THE FISCAL YEAR ENDED JUNE 30, 2020

#### 2019-1: INTERNAL CONTROL – ASSOCIATED STUDENT BODY (30000)

#### Criteria

Education Code Section 48930 (and the California Department of Education's "Accounting Procedures for Student Organizations Handbook") requires student body organizations to follow the regulations set by the Governing Board of the school district.

- All deposits should be made to the bank in a timely manner.
- All purchases should be authorized in advance by the School Site Principal.

#### Condition

At Ripon Elementary School we noted that receipts in the amount of \$469 for the Girls Basketball Tournament were kept for three weeks before they were deposited into the bank.

At Ripon Elementary School we noted that a \$620 check was approved a week after it was already issued.

#### **Effect**

Untimely deposits lead to increased risk of receipts being misplaced or misappropriated.

#### Cause:

The policies and procedures for account and cash handling procedures, as outlined by the District, were not properly implemented by the school site personnel.

ASB funds may be erroneously disbursed to pay for expenditures that have not been authorized.

#### Recommendation

All revenues received by the ASB should be deposited in a timely manner.

Ensure all checks are authorized before being issued.

#### Status

Implemented.
