 - d. Kathy discussed that members/stakeholders have the opportunity to give input. Dr. Robeson meets with parents, students and staff so all of these stakeholders do give input.
 - i. Amie Walker discussed that overall the survey is difficult and feels like people don't know how to answer accurately because they won't know where to get the appropriate detail regarding the questions asked.
 - ii. Another parent felt like he was guessing, because he didn't have enough information to answer the questions.

- iii. At the last PAC meeting discuss rewording the questions for the LCAP survey. Maybe make the questions more “parent friendly”.
- e. Please see the handout for further information
